TEEN NOW!

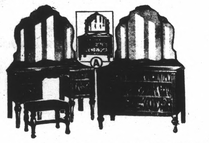
By Frances H. Paulette

Gettin' It Together

The wedding day was drawing near; anticipation was running neck and neck with apprehension. There was so much to be done; the wedding itself was one thing but getting things in order for the new house was something else!

Let's take a look at some of the necessities, (or in some instances, luxuries), that were available for the couple furnishing their home back THEN.

In 1924, a genuine brass bed, weighing 165 pounds with three-inch corner posts could be bought for only $26.45. Only $26.45? Hey, wait a minute, that was a lot of money THEN!



Should the couple furnishing a home back in 1935 choose to have matched bedroom furniture they might choose a three-piece suite of walnut veneers for $36.95. Quite a bargain, even for those days wouldn't you say?

Way back THEN most brides had been taught, at a very early age, the art of sewing and in many instances made all of their own clothes. If the budget would allow, she might be the proud owner of a 1925 sewing machine at a cost of $40.95.

For the couples planning to make their home on the farm, the spring-box would often have to suffice as a means of keeping food safe during the summer months. However, for the couple of "means" an ice-box might be included in the budget. In 1924 an icebox made of ash wood could be purchased for $24.00

What about the cost of "setting-up housekeeping" NOW? No way are we going to talk about that! Too discouraging! I will say to the newly-weds "Happy House-Furnishing" and I hope your new life together will fulfill all of your fondest dreams!
